ITEM

ACTION

This was the second meeting to discuss the development of the Forest Plan. PN detailed the discussions leading up to the proposal for a Forest Plan to be written, and also the aim of the Plan.

The aim is to achieve an agreement on the future co-operation of the major woodland owners along the Sefton Coast covering the management of the woodlands.

In achieving this aim there are a number of objectives which this list is only part of

- recognize the primary business of the organizations taking part in the plan is not always based on the woodland. Formby Golf Club and Altcar Rifle Range have business/training issues that are the main business.
- the management plan can provide a positive framework for future work

PN

ITEM

ACTION

- each owner is able to contribute different elements to the overall plan
- community/political involvement and support is important in ensuring the acceptance of the plan.
